

Greetings Guidance Counselors,

We are reaching out to you today to talk a little bit about the esports program that we have developed at West Virginia Wesleyan College.

For those reading who may not know, collegiate esports is the organized play of competitive video games between colleges and universities for prizes ranging from merchandise all the way to scholarships and cash. Through our esports program, WVWC is able to offer students access to facilities and resources to level up their playing skills and a coaching staff dedicated to the success of our players both in game and on campus. This allows our students to participate in all levels of esports play from collegiate to organized professional play through all tournament systems. We are also offering students a place to learn different skills such as: video production, tournament management/organization, and broadcasting as we believe that a well-rounded esports program teaches students about the esports industry alongside offering the competitive experience.

Wesleyan is currently looking to recruit for 7 titles. These titles include:

- Valorant
- League of Legends
- Fortnite
- Smash Bros Ultimate
- Call of Duty
- Rocket League
- Rainbow Six: Siege

Over the last year we have worked closely with multiple high schools in the state to help establish esports programs as well as providing volunteer coaching to assist high school teams in being the best they can. We have worked with programs on all spectrums of establishment and have helped boost opportunities for students looking to experience esports in high school and college.

We are still devoted to finding dedicated students looking to explore the opportunities esports has to offer them both on campus and in the industry. I believe that esports is the next step of academic competition at all levels ranging from elementary through collegiate, and would like to be the one to offer help and support if your school has any interest in pursuing esports for your students. We also would love to establish a relationship with our programs and your campus, regardless of high school esports affiliation, to provide scholarship and opportunities to students on your campus who may seek to pursue this option. If you have any interest in discussing this further or are looking to continue any conversations that were started last year, please feel free to reach out to me through my email at hayes.e@wvwc.edu or feel free to give me a call at 409-679-1033.

Thank you for your time and consideration, I hope to hear from you soon.

Ethan Hayes
Head Coach, Esports

WEST VIRGINIA **WESLEYAN** COLLEGE

**Recruiting
FOR
Seven
Games**

VAL RANT

LEAGUE
LEGENDS
